

## MCPS DISTRICTWIDE BOUNDARY ANALYSIS

# Phase II Engagement: Small Group Meetings

The Districtwide Boundary Analysis is an initiative designed to provide a comprehensive assessment of Montgomery County Public Schools (MCPS) boundaries by analyzing data related to **utilization, diversity, proximity, and assignment stability**.

Phase II engagement is centered around an Interactive Boundary Explorer to support residents and stakeholders in conducting a deeper exploration of MCPS school boundaries. The process will engage as many county residents and stakeholders as possible in the use of this interactive tool and gather feedback via the tool's survey instrument and virtual discussions.

Public feedback will be included in the final report and presented to the Board of Education to inform future planning on school boundaries.

### Small Group Meetings

Thursday, November 19 2020, 12:00-1:30pm

#### **SMALL GROUP MEETING #1**

English

Thursday, November 19 from 7:00-8:30pm

#### **SMALL GROUP MEETING #2**

En Español

Saturday, November 21 from 10:00-11:30am

#### **SMALL GROUP MEETING #3**

English

Monday, November 23 from 7:00-8:30pm

#### **SMALL GROUP MEETING #4**
