Camps, care, and enrichment programs designed to educate, entertain, and engage students.

CLASS DESCRIPTION

CHESS CLUB SILVER KNIGHTS CHESS

Learn chess with Silver Knights! We've taught 100,000 children to play including state & national champions, but most students are beginners looking to learn a new skill and have FUN. Class time is divided between lessons and practice games. Lessons range from the basic rules to advanced tournament strategies. Students will have the opportunity to play in tournaments. All chess supplies provided. All skill levels are welcome.

IMPROVISATION IMAGINATION STAGE

This class introduces students to a style of acting that encourages spontaneous characters, quick thinking, and interesting conflict choices

PYTHON GAME QUEST CODE ADVANTAGE

Time to create your own video game! Learn coding fundamentals of Python while creating your own version of a classic video game genre. Using the same mechanics found in popular games such as Tetris, Space Invaders, and Animal Crossing you can build your own video game with customized characters, backdrops, and the "quest" of the game. Throughout the class, we will build upon your game, create start menus, and design multiple levels of difficulty. Get ready to amaze family and friends with your own video game creation!

TENNIS TGA PREMIER TENNIS

The USTA and TGA bring a tennis program to you! We offer a fun introduction to the sport for students ages 5 to 16 in an engaging and supportive environment. While learning basic foundations and etiquette of tennis, students will also improve their fine motor skills and coordination through games and entertaining drills. Coaches use teachable moments during classes to promote life skills such as honesty and sportsmanship. Youth tennis racquets are provided. New to tennis? No problem! Players without prior tennis experience are welcome to join.
